# **Список таблиц**

# **1 Цель работы**

Целью данной работы являются размещение на сайте данных о себе и создание постов.

## 2 Выполнение лабораторной работы

Для начала требовалось поменять фотографию на странице сайта. Для этого помещаем свою фотографию в папку admin и называем ее avatar.jpg (рис. [2.1]).

Рис. 2.1: Смена фотографии владельца сайта

Меняем информацию о себе. Вписываем свое имя, краткую характеристику (рис. [2.2]) и биографию (рис. [2.3]).

```
1 ---
2 # Display name
3 title: Mishina Anastasiya
4
5 # Full name (for SEO)
6 first_name: Anastasiya
7 last_name: Mishina
8
9 # Status emoji
10 status:
11   icon: 😊
12
13 # Is this the primary user of the site?
14 superuser: true
15
16 # Role/position/tagline
17 role: Frontend developer
18
19 # Organizations/Affiliations to show in About widget
20 organizations:
21   - name: Peoples' Friendship University of Russia
22     url: https://www.rudn.ru/
23
24 # Short bio (displayed in user profile at end of posts)
25 bio: My research interests include web-design, android apps development and programming learning.
26
```

Рис. 2.2: Написание своего имени, характеристики

```
75 ---
76
77 Mishina Anastasiya is a student at the People's Friendship University of Russia. Her interests include web-design, android applications development and learning about
programming. She got Secondary general education in Bryansk Lyceum №2 (graduated 2022). She is studing the course of Applied Computer Science, where is learning programming
in deferent spheres.
78
79 {style="text-align: justify;"}
```

Рис. 2.3: Написание биографии

Описываем по заданию свои интересы и полученное образование (рис. [2.4]).

```
# Interests to show in About widget
```

```
interests:
```

- Web-design
- Android development
- Learning

```
# Education to show in About widget
```

```
education:
```

```
courses:
```

- course: Secondary general education
- institution: Lyceum №2 Bryansk
- year: 2022

Рис. 2.4: Описание интересов и образования

Далее требовалось создать два поста. Первый пост был о своей прошедшей неделе. Переходим в терминал и создаем новую папку с постом last\_week (рис. [2.5]). Затем уже в новой папке открываем md файл и пишем о своей прошедшей неделе. Помимо текста добавляем картинку, кладем ее в папку нашего поста, называем featured.jpg (рис. [2.6]).

```

^C[aamishina@fedora blog]$ hugo new post/last_week
Content dir "/home/aamishina/work/blog/content/post/last_week" created
[aamishina@fedora blog]$ hugo server

32 ## My Story
33
34 Hello everyone! It is so nice to know you are interested in my life. In this short article I am going to tell you about my past week.
35
36 So, this week I was very productive. I did two labs, took part in university concert, did a lot of homework and even slept well enough.
37
38 At the same time, I had time to walk with my friends, go on dates, celebrate the International Women Day and even go to the concert of my favourite boys band.
39
40 Hope that it was interesting for you to read.
41
42 See you next week!--

```

Рис. 2.6: Написание поста о прошедшей неделе

Аналогично создаем второй пост. Я выбрала написать пост про систему контроля версий git (рис. [2.7]), (рис. [2.8]).

```
^C[aamishina@fedora blog]$ hugo new post/git
Content dir "/home/aamishina/work/blog/content/post/git" created
[aamishina@fedora blog]$
```

Рис. 2.7: Работа в терминале

30
31  ## What is Git?
32
33  Git is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency.
34
35  Git is easy to learn and has a tiny footprint with lightning fast performance. It outclasses SCM tools like Subversion, CVS, Perforce, and ClearCase with features like cheap local branching, convenient staging areas, and multiple workflows.
36
37  ## Git functions
38
39  If we speak about Git functions in general:
40
41  * Git is used to tracking changes in the source code
42  * The distributed version control tool is used for source code management
43  * It allows multiple developers to work together
44  * It supports non-linear development through its thousands of parallel branches
```

Рис. 2.8: Написание поста о Git

Итак, вот такой сайт у нас получился за второй этап индивидуального проекта.

Мои фотография и биография (рис. [2.9]). При создании сайта мы использовали новый шаблон, где уже не показываются интересы и образование на главной странице. Чтобы это исправить я указала данную информацию в своей биографии.

## Mishina Anastasiya

Frontend developer

## **3 Выводы**

В ходе выполнения данной работы я разместила на сайте свою биографию, фотографию, создала два поста о своей прошлой неделе и о гите.
